Recognition for Completion of Periodic Review

Pendleton, Ore. -- The Umatilla County Board of Commissioners will recognize the completion of Periodic Review of the county land use planning program at their Board Meeting on December 6, 2006. The meeting will begin at 10:00 am in Room 114 of the County Courthouse, 216 SE Fourth Street, Pendleton.

State law mandates that every city and county undertake a periodic review of its comprehensive land use planning program every 7 to 10 years. Umatilla County began the Periodic Review process in 1994. It was completed in 2006 with the assistance and involvement of many county citizens. The county received the formal notice of completion from the State Land Conservation & Development Department earlier this year.

Persons who participated in Periodic Review will receive a Certificate of Appreciation from the Umatilla County Board of Commissioners. Individuals who are unable to attend the December 6 meeting will receive their certificate by mail. Participants who have moved since their involvement are asked to provide a current mailing address by contacting Heather Smith in the County Planning Department at (541) 278-6248.
