News Release No: #2009-16	

On Wednesday, July 08, 2009 the Oregon State Medical Examiners office conducted an autopsy on the human remains recently discovered at a storage facility in Milton-Freewater, Oregon. The remains have yet to be confirmed by dental records, however; the medical condition of the body is consistent with that of the medical history of the 11 year old girl, Cheyenne Wolf, reportedly missing in Havre, Montana.

The investigation is continuing and information will be released as it becomes available.
