 1 run north through center S 5 1/2 Sec 9
- 22 00 descriptive line on N 6 cor bet No
- 40 00 the center to Sec 9

John W. Kimbrell County Surveyor

(continued from page 445)

I consider the evidence in favor of the corner
 as standing at the fence corner too strong to set
 aside and therefore accept the fence corner as the
 true corner of the S. W. corner of Sec. 36 T. 5. N. R. 2
 E. W. Br. Cor. Same being disqualified with the
 survey at this juncture we discontinue any further
 survey.
