Section 1.010 TITLE

This ordinance shall be known as the Umatilla County Zoning Ordinance of 1972.

Section 1.020 PURPOSE.

The purpose of this ordinance shall be to promote the public health, safety and general welfare and to carry out appropriate elements of the Comprehensive Plan of Umatilla County.

Section 1.030 COMPLIANCE WITH ORDINANCE PROVISIONS

(1) A lot may be used and a structure or part of a structure may be constructed, reconstructed, altered, occupied or used only as this ordinance permits.

(2) No lot area, yard, or other open space existing on or after the effective date of this ordinance shall be reduced below the minimum required for it by this ordinance, except where it can be shown by a survey from a surveyor licensed in Oregon that the survey lines do not correspond with physical boundary markers (such as fences) thought to be the true property lines by adjoining property owners, when these physical boundary markers have existed for at least ten (10) years, proof of which shall be provided by the person seeking the change of the lot.

(3) No lot area, yard, or other open space which is required by this ordinance for one use shall be used as the required lot area, yard, or open space for another use.

Section 1.035 ZONING PERMIT

Prior to the construction, reconstruction, addition to, or change of use of a structure, or the change of use of a lot, or the installation or replacement of a mobile home on a lot, a zoning permit shall be obtained from the county planning office. Within the Flood Hazard Area, a permit shall be required for all other development including mining, paving, excavation or drilling. Structures of 100 square feet or less in area and structures described in Section 1.040 do not require a zoning permit except when located in a designated Flood Hazard Area. A zoning permit shall be void after one year unless construction has commenced. The Planning Commission or its authorized agent may extend the permit for an additional period not to exceed one year upon written request.

Section 1.040 EXEMPTIONS

In farm use zones F-1, F-2, and F-5
agriculture, grazing, horticulture and other commercial farm uses allowed in those zones shall be exempt from the provisions of this ordinance. This exemption includes farm buildings such as barns, sheds and silos but does not include a principal dwelling unit of an owner or tenant farmer, nor farm employee living quarters. Agriculture is interpreted to be the tilling of the soil and the raising of crops and includes land lying fallow on a rotation plan and incidental farm wood lots. Grazing is interpreted to be the pasturing of domestic, herbivorous animals such as horses, cattle, sheep or goats. Horticulture is interpreted to be the growing of fruits, vegetables, flowers, ornamental plants and similar crops. Other farm uses included in this section are beekeeping, dairying, swine raising, ranching, or fur-bearing animals, animal husbandry and similar farming operations, and the primary preparation and storage of farm products grown on the premises.

Section 1.050 ABROGATION AND GREATER RESTRICTIONS

It is not intended by this ordinance to repeal, abrogate or impair any existing easements, covenants or deed restrictions; however, where this ordinance imposes greater restrictions, the provisions of this ordinance shall prevail.

Section 1.055 UNZONED LAND

Any unzoned land in Umatilla County coming under the control of this ordinance shall be automatically zoned F-2 General Rural Zone. However, any land previously zoned under another Zoning Ordinance shall be assigned a similar zone under this ordinance, unless such zoning conflicts with the Comprehensive Plan of Umatilla County. If such a conflict should occur, the zoning of that land shall be reviewed by the Umatilla County Planning Commission, and amendment proceedings initiated if such amendment be deemed desirable by the Planning Commission.

Section 1.060 LOCATION OF ZONES

The boundaries for the zones listed in this ordinance are indicated on the Umatilla County Zoning Map of 1972, which is hereby adopted by reference. The boundaries shall be modified in accordance with zoning map amendments which shall be adopted by reference.

Section 1.070 ZONING MAPS

A zoning map or zoning map amendment adopted by Section 1.060 of this ordinance or by an amendment thereto shall be prepared by authority of the Planning Commission or be a modification by the County Board of Commissioners of a map or map amendment so prepared.

The map or map amendment shall be dated with the date of its approval by the Planning Commission or the effective date of the ordinance that adopts the map or map amendment. A certified print of the adopted map or map amendment shall be maintained without charge in the office of the County Clerk as long as this ordinance remains in effect.

Section 1.080 ZONE BOUNDARIES

railroad rights-of-way, or such lines extended.

F-H, FLOOD HAZARD SUBDISTRICT

Sub-Sections:

3.150 Purpose
3.151 Compliance
3.152 Location of flood hazard areas
3.153 Zoning map
3.154 Limitations on all uses
3.155 Limitations of fill
3.156 Limitations on structures
3.157 Limitations on storage of material and equipment
3.158 Procedure
3.159 Destruction of nonconforming use or structures

Section 3.150 PURPOSE

The purpose of the Flood Hazard Subdistrict is to promote and protect the public health, safety, and general welfare and to minimize flood losses by provisions designed to:

1. Restrict or prohibit uses which are dangerous to health, safety, or property in times of flood or which because increased flood heights or velocities;

2. Require that uses vulnerable to floods, including public facilities which serve such uses, be provided with flood protection at the time of initial construction;

3. Protect individuals from buying lands which are unsuited for some purposes because of flood hazard.

Section 3.151 COMPLIANCE

A lot may be used and a structure or part of a structure may be constructed, reconstructed, altered, occupied or used in a Flood Hazard Area only as this section permits.

Section 3.152 LOCATION OF FLOOD HAZARD AREAS

(1) The boundaries of areas delineated as Flood Hazard Areas in Umatilla County, Oregon shall be the boundaries of those areas of special flood hazard identified by the Federal Insurance Administration in a scientific and engineering report entitled “The Flood Hazard Insurance Study for Umatilla County” dated June 15, 1978, with accompanying Flood Insurance Maps which are hereby established as the Flood Plain Zoning Map for Umatilla County. Future Flood Hazard Reports prepared by the Federal Insurance Administration and other delineations of Flood Hazard Areas may be added to this ordinance by Amendment as hereinafter provided.

(2) When base flood elevation data has not been provided in accordance with Subsection 1 of this Section the County shall obtain, review and reasonably utilize any base flood elevation data available from a federal, state or other source in order to administer residential and non-residential construction within potential special flood hazard areas. When no base data exists, the zoning permit applications shall be reviewed to assure that proposed construction will be reasonably safe from flooding. The test of reasonableness shall be made through the use of historical data, high water marks, photographs of past flooding, etc., where available.

Section 3.153 ZONING MAP

The official Flood Plain Zoning Map for Umatilla County with all explanatory matter
thereon and attached thereto is hereby adopted by reference and declared to be a part of this ordinance. The official copy shall have been signed by the County Board of Commissioners and County Clerk and be maintained on file in the office of the County Clerk and Planning Office.

Section 3.154 LIMITATIONS ON ALL USES

No structure (temporary or permanent), fill, including fill for roads and levees, deposit, obstruction, storage materials or equipment or other uses shall be permitted in a flood Hazard Area which, acting alone or in combination with existing or future uses unduly affects the efficiency or capacity of the Floodway or unduly increases flood heights. The County shall notify adjacent communities and State coordinating agencies prior to any alteration or relocation of a water course, and submit evidence of such notification to the Federal Insurance Administration and require that maintenance is provided within the altered or relocated portion of said water course so that flood carrying capacity is not diminished.

Section 3.155 LIMITATIONS OF FILL

(1) Any fill proposed to be deposited in a Flood Hazard Area must be shown to have some beneficial purpose and the amount must not be greater than is necessary to achieve that purpose, as demonstrated by a plan submitted according to Section 3.158.

(2) Such fill or other materials shall be protected against erosion by rip-rap, vegetative cover or bulkheading.

Section 3.156 LIMITATIONS ON STRUCTURES

(1) The lowest floor elevation, including the basement, of a new or substantial improvement of an existing structure designed for human occupation shall be at least one foot above the elevation of a Base Flood. Human occupation includes a residential, commercial or industrial use but excludes a storage or warehouse building not in daily use.

(2) The portions of a new or substantial improvement of an existing structure below an elevation one foot above the elevation of a Base Flood shall:

(a) Be floodproofed so that below the Base Flood level the structure is watertight with walls substantially impermeable to the passage of water; and

(b) Have structural components capable of resisting hydrostatic and hydrodynamic loads and effects of buoyance; and

(c) Be certified by a registered professional engineer or architect that the standards of this subsection are satisfied. Such certification shall be provided to the County.

(3) In the case of a land subdivision, new or existing, each lot intended as a site for a structure for human occupancy shall contain a building site and access road with a ground level elevation no lower than one foot below the elevation of a Base Flood; be accessible to a roadway no portion of which is less than one foot below the elevation of a Base Flood; and be served by sewer and water supply systems designed and constructed to not create a health hazard during inundation by a Base Flood; replacement of water supply and sanitary sewage systems shall be designed to minimize or eliminate infiltration of flood
waters into the system; and any on-site waste disposal systems existing or permitted shall be located to avoid impairment to them during flooding. Base Flood elevation data shall be provided for subdivision proposals or other proposed developments which contain at least 50 lots or 5 acres whichever is less.

(4) A permitted structure in a Flood Hazard Area shall be constructed and placed on the building site so as to offer the minimum obstruction to the flow of flood waters. Whenever possible, structures shall be constructed with the longitudinal axis parallel to the direction of flood flow and shall be placed approximately on the same flood flow lines as those of adjoining structures.

(5) Anchoring:

(a) All new construction and substantial improvements shall be anchored to prevent flotation, collapse or lateral movement of the structure;

(b) All mobile homes shall be anchored to resist flotation, collapse or lateral movement by providing over-the-top and frame ties to ground anchors. Specific requirements shall be that:

(1) Over-the-top ties be provided at each of the four corners of the mobile home, with two additional ties per side at intermediate locations, with mobile homes less than fifty feet long requiring one additional tie per side;

(2) Frame ties be provided at each corner of the mobile home with five additional ties per side at intermediate points, with mobile homes less than fifty feet long requiring four additional ties per side;

(3) All components of the anchoring system be capable of carrying a force of 4,800 pounds;

(c) An alternative method of anchoring shall involve a system designed to withstand a wind force of ninety miles per hour or greater, an engineer's certification shall be provided to the County, that this standard has been met.

(6) Service facilities such as electrical and heating equipment shall be constructed above the elevation of a Base Flood.

(7) Mobile homes:

(a) Mobile homes shall be anchored in accordance with Section 3.156(5);

(b) For new mobile home parks and mobile home subdivisions; for expansions of existing mobile home parks and mobile home subdivisions; for existing mobile home parks and mobile home subdivisions where the repair, reconstruction, or improvement of the streets, utilities and pads equal or exceeds fifty (50%) percent of the value of the streets, utilities and pads for repair, reconstruction or improvement has commenced; and for mobile homes not placed in a mobile home park or mobile home subdivision, require that:

(1) Stands or lots are elevated on compacted fill or on pilings so that the lowest floor of the mobile home will be at or above the Base Flood level;

(2) Adequate surface drainage and access for a hauler are provided; and

(3) In the instance of elevation on pilings, that:

- lots shall be large enough to permit steps;

- piling foundations are placed in stable soil no more than ten feet apart; and
(c) No mobile home shall be placed in an established floodway except in an existing mobile home park or existing mobile home subdivision approved prior to the date of this Ordinance Amendment.

Section 3.157 LIMITATIONS ON STORAGE OF MATERIAL AND EQUIPMENT

(1) The storage or processing of materials that are buoyant, flammable, explosive or that could be injurious to human, animal or plant life in time of flooding is prohibited in a Flood Hazard Area.

(2) Storage of other material or equipment may be allowed in a Flood Hazard Area if not subject to major damage by floods, if firmly anchored to prevent flotation, or if readily removable from the area within the limited time available after flood warning.

Section 3.158 PROCEDURE

In a Flood Hazard Area, a lot may be used and a structure or part of a structure constructed, reconstructed, altered, occupied or used only after the following requirements have been met:

(1) An applicant shall submit with his application for a zoning permit, sufficient evidence to indicate that the lowest floor elevation of a structure designed for human occupancy will be at least one foot higher than the elevation of a Base Flood, and that in a subdivision the building site and access will be no lower than one foot below the elevation of a Base Flood. This evidence shall include sketches showing:

(a) The nature, location, dimensions and elevations of the lot, and its location in relation to the channel;

(b) Development plan showing existing and proposed elevations or contours of the ground; pertinent structure, fill or storage elevations; size, location and spatial arrangement of all proposed and existing structures on the site; location and elevation of streets and all existing and proposed underground facilities;

(c) A typical valley cross-section showing the channel of the stream, elevation of land areas adjoining each side of the channel, cross-sections of areas to be occupied by the proposed development, and high water information;

(d) Profile showing the slope of the bottom of the channel or flow line of the stream;

(e) Specifications for building construction and materials, flood proofing, filling, dredging, grading, channel improvements, storage of materials, water supply and sanitation facilities;

(f) Obtain and record the actual elevation (in relation to mean sea level) of the lowest habitable floor (including the basement) of all new or substantially improved structures, and whether or not the structure contains a basement;

(g) For all new or substantially improved flood proofed structures:

(1) Verify and record the actual elevation (in relation to mean sea level); and

(2) Maintain the flood proofing
certifications.

(3) An applicant shall submit with his application for a zoning permit sufficient evidence concerning his construction methods and materials to indicate that minimum flood damage will occur in the event of inundation. This evidence shall be sufficient to indicate that:

(a) Proposed repairs and renovations will use materials and equipment that are resistant to flood damage, and construction methods and practices that will minimize flood damage;

(b) New construction, including prefabricated and mobile homes will be protected against flood damage, will be designed or modified and anchored to prevent flotation, collapse or lateral movement of the structure, will use materials and equipment that are resistant to flood damage, and will use construction methods and practices that will minimize flood damage.

(4) All applications shall be reviewed to determine that all necessary permits have been obtained from those federal, state or local governmental agencies from which prior approval is required.

Section 3.159 DESTRUCTION OF NONCONFORMING USE OR STRUCTURES

If a nonconforming structure in a Flood Hazard Area is destroyed by any cause to an extent exceeding 80 percent of its fair market value, as indicated by the records of the County Assessor, a future structure on the site shall conform to this ordinance.

3.183 Density increases
3.184 Procedure

Section 3.180 DESCRIPTION AND PURPOSE

The PD Planned Unit Development Subdistrict is intended to encourage the appropriate development of tracts of land that are sufficiently large to allow comprehensive site planning, and to provide flexibility in the application of zoning regulations, thereby promoting a harmonious variety of uses, the economy of shared services and facilities, compatibility with surrounding areas, and the creation of an attractive, healthful, efficient and stable environment for living, shopping and working.

Section 3.182 STANDARDS AND REQUIREMENTS

(1) The principal use of land in a Planned Unit Development shall be residential. Other uses within the development may include uses permitted in any zone.

(2) Planned Unit Developments shall not be permitted on a parcel of land less than 19 acres in area in an agricultural zone, or 10 acres in a commercial or industrial zone, or five acres in a residential zone.

(3) The tract or tracts of land included in a proposed Planned Unit Development must be in one ownership or control of the subject of a joint application by the owners of all the property included. The holder of a written option to purchase shall be deemed the owner of such land for the purposes of this section.

(f) The streets are adequate for the anticipated traffic and the development will not overload the streets outside the planned area;
(g) Proposed utility and drainage facilities are adequate for the population densities and type of development proposed. Should the planning staff find that the foregoing provisions are satisfied, a public hearing shall be scheduled for the next regular Planning Commission meeting, following the procedures set forth in Section 10.050.

(5) Should the Planning Commission agree with the staff's findings and approve the preliminary plan, authorization shall be given to prepare the final plat according to Article 4 of the Umatilla County Subdivision Ordinance, if the Planning Commission finds to the contrary, it may deny the application or return the plan to the applicant for revision.

(6) In addition to the requirements of this section, the Commission may attach conditions it finds are necessary to carry out the purposes of this ordinance.

(7) All zoning permits in a Planned Unit Development shall be issued only on the basis of the approved final plat. Any changes in the approved plan shall be submitted to the Planning Commission for approval.

(8) Unless otherwise provided as a condition for approval of a Planned Unit Development permit, the permittee must divide and transfer units of any development only according to the approved final plat. The transferee shall use and maintain each such unit in strict conformance with the approved permit and final plat.

(9) Whenever a planned unit development permit has been granted, and so long as the permit is in effect, the boundary of the Planned Unit Development shall be indicated on the “Zoning Map of the County of Umatilla” as subdistrict “PD”.

One projecting or free-standing sign not to exceed 20 feet in height nor 65 square feet in area for each face. The minimum setback for any part of a sign shall be 10 feet, or shall be at the discretion of the Planning Commission, and shall be measured horizontally from the lot line to the nearest part of the sign. A projecting or free-standing sign shall be allowed only by a ruling of the Planning Commission and shall be limited to those businesses for which an attached flat sign is not suitable due to the nature of the business or the characteristics of the lot.

**Section 4.014 LIMITATIONS ON SIGNS**

(2) No sign shall be illuminated by flashing light;

(3) No sign shall contain, include, or be composed of any conspicuous animated part;

(4) In addition to the limitations on signs as provided by (1) through (3) above, additional sign restrictions may be required as determined by the Planning Commission in approving conditional uses, as provided by
Article 7.

Section 4.016 APPLICATION MATERIAL

(2) Merchandise: Off-street parking areas used to fulfill the requirements of this ordinance shall not be used for loading and unloading operations except during periods they are not required for parking.
Section 4.035 GENERAL PROVISIONS: OFF-STREET PARKING AND LOADING

(1) Should the owner or occupant of a lot or building change the use to which the lot or building is put, thereby increasing off-street parking or loading requirements, it shall be a violation of this ordinance to begin such altered use until the required increase in off-street parking or loading is provided.

(2) Requirements for types of buildings and uses not specifically listed herein shall be determined by the Planning Commission, based upon the requirements of comparable uses listed.

(3) In the event several uses occupy a single structure or parcel of land, the total requirements for off-street parking shall be the sum of the requirements of the several uses computed separately.

(4) Owners of two or more uses, structures, or parcels of land may agree to utilize jointly the same parking and loading spaces when the hours of operation do not overlap, provided that satisfactory legal evidence is presented to the secretary of the Planning Commission in the form of deeds, leases, or contracts to establish the joint use.

(5) Off-street parking spaces for dwellings shall be located on the same lot with the dwelling. Other required parking spaces shall be located not farther than 500 feet from the building or use they are required to serve, measured in a straight line from the building.

(6) Required parking spaces shall be available for the parking of operable passenger automobiles of residents, customers, patrons and employees only, and shall not be used for storage of vehicles or materials or for the parking of trucks used in conducting the business or use.

(7) Unless otherwise provided, required parking and loading spaces shall not be located in a required yard.

(8) Plans shall be submitted as provided in Section 10.030(3).

(9) Design requirements for parking lots:

(a) Areas used for standing and maneuvering of vehicles shall have durable and dustless surfaces maintained adequately for all-weather use and so drained as to avoid flow of water across public sidewalks;

(b) Except for parking to serve residential uses, parking and loading areas adjacent to residential uses shall be designed to minimize disturbance of residents by the erection between the uses of a sight obscuring fence of not less than five feet in height except where vision clearance is required;

(c) Parking spaces along the outer boundaries of a parking lot shall be contained by a curb at least four inches high and set back a minimum of four and one-half feet from the property line, or by a bumper rail;

(d) Artificial lighting which may be provided shall not create or reflect glare in a residential zone or on any adjacent dwelling;

(e) Service drives to off-street parking areas of four or more spaces shall be clearly and permanently marked and defined through use of rails, fences, walls, or other barriers or markers on frontage not occupied by service drives;

(f) Service drives shall have a minimum vision clearance area bounded by the driveway center line, the street right-of-way line, and a straight line joining said lines 20
feet from their intersection.

Section 4.040 AUTHORIZATION OF SIMILAR USES

The Planning Commission may permit in a particular zone a use not listed in this ordinance, provided the use is of the same general type as the uses permitted there by this ordinance.

Section 4.050 ACCESS

Every building hereafter erected or moved shall be on a lot that abuts a public street or a recorded easement. All structures shall be so located on lots as to provide safe and convenient access for servicing, fire protection, and required off-street parking.

Section 4.060 GENERAL PROVISIONS REGARDING ACCESSORY USES

An accessory use shall comply with all requirements for a principal use in each zone, except as follows:

1. An accessory structure in an R-3 Zone shall not exceed 15 feet in height, except radio and TV antennas, nor 800 square feet in area, and must be detached from other buildings by 5 feet or more and be more than 65 feet from a front lot line, and may be located not less than three feet from a rear or side lot line.

Section 4.070 VISION CLEARANCE

Vision clearance areas shall be provided, with the following distance establishing the size of the vision clearance area:

1. In an agricultural or residential zone the minimum distance shall be 30 feet or, at intersections including an alley, 10 feet;

2. In all other zones the minimum distance shall be 15 feet or, at intersections including an alley, 10 feet, except that when the angle of intersection between streets is less than 30 degrees the distance shall be 25 feet;

3. The vision clearance area shall not contain any planting, wall, structure, or obstruction of any kind exceeding 2½ feet in height measured from the grade of the street center line.

Section 4.080 OUTDOOR STORAGE

1. Boats and trailers, travel trailers, pickup campers or coaches, motorized dwellings, and similar recreation equipment may be stored on a lot but not used as an accessory use in any zone provided that:

   a. In an R-3 Zone, parking or storage in a front yard or in a side yard abutting a street other than an alley shall be permitted only on a driveway;

   b. Parking or storage shall be at least three feet from an interior side lot line.

2. Automotive vehicles or trailers of any kind or type without current license plates, where required, shall not be parked or stored on any residentially zoned property other than in completely enclosed buildings.

Section 4.090 MOBILE HOMES

Siting. Mobile homes may be maintained for residential purposes in the unincorporated portions of Umatilla County only as provided
herein:

(1) Where permitted by a zoning district pursuant to a zoning permit;

(2) Mobile homes in authorized mobile home park. A zoning permit is not required for mobile homes located within authorized mobile home parks;

(3) Temporary Mobile Home placement in conformance with Sections 5.050(b)(3) and 5.070.

Application. An application for a zoning permit for a mobile home shall be made to the Planning Department. Except as provided herein, the Planning Department shall issue zoning permits for mobile homes and accessories thereto as authorized by other sections of this ordinance upon compliance with the following requirements:

(1) The site and location of a mobile home shall meet area, frontage, access, setback, and other requirements of this ordinance;

(2) The mobile home shall be served by an approved water supply;

(3) The mobile home shall be served by a sewage disposal system approved by the Department of Environmental Quality;

(4) All construction and all installation of plumbing, gas piping, electrical equipment and wiring shall comply with all laws and regulations of the State of Oregon;

(5) The mobile home shall be skirted on its lower perimeter by a fire resistant siding.

Nonconforming Use. Mobile homes not conforming with this subsection on the date of adoption of this ordinance shall be allowed to continue as a nonconforming use. If a mobile home site is discontinued for any reason for more than one year, it shall not be re-established.

Abatement. An occupied, abandoned, or unoccupied mobile home may be abated if it constitutes a menace to the public health, safety and welfare, thereby rendering it a public nuisance.
ARTICLE 5, EXCEPTIONS

Sections:

5.010 Yard exceptions
5.015 Lot exceptions
5.020 Erection on more than one principal structure on a lot
5.025 Boundary adjustments
5.030 Home occupations
5.040 Conversion of easement to tax lot
5.050 Temporary special permit
5.060 Special exceptions to minimum area requirements
5.070 Special exceptions for temporary mobile home placement
5.080 Use of existing agricultural buildings in residential zones

Section 5.010 YARD EXCEPTIONS

(1) Architectural features such as cornices, eaves, sunshades, gutters, chimneys, and flues may project into a required yard. Also steps, terraces, platforms and porches having no roof covering and fences not interfering with the vision clearance requirements may occupy a yard. Signs conforming to the requirements of this ordinance and all other applicable ordinances shall be permitted in required yards.

(2) Canopies: The yard between a canopy and any lot line shall be a minimum of 10 feet. Except that a smaller setback may be permitted if specifically allowed in a given zone.

Section 5.015 LOT EXCEPTIONS

In any zone, the stated minimum lot area for residential purposes may be abolished by a ruling of the Planning Commission, provided that it is replaced by a maximum gross density of equal restrictiveness. For example, given an undeveloped five acre parcel in an R-2 Suburban Residential Zone, whether or not subdivided or under one ownership, the Planning Commission may rule on request that, instead of five houses on one-acre lots, there may be a cluster of five houses on a small plot of ground and the remainder of the five acres shall be kept undeveloped and shall not be re-divided for sale or building development.

Section 5.020 ERECTION OF MORE THAN ONE PRINCIPAL STRUCTURE ON A LOT

In any farm or residential zone, more than one allowed principal structure or use may be erected on a single lot under one ownership, provided that yard and other requirements of this ordinance are met for each structure as though it were an individual lot no smaller than the minimum allowed in that zone and as though there were lot lines between them. In a commercial or industrial zone each principal structure or use shall be on an individual tax lot. Should a portion of a single tax lot be under separate ownership, either by sale or by an undivided interest, a new separate tax lot must be created before a zoning permit will be issued.

Section 5.025 BOUNDARY ADJUSTMENTS

(1) Land parcels of less than the minimum allowed in a zone may be transferred by legal document from one tax lot to another, on approval of the Planning Director and the Department of Environmental quality, provided that no resulting tax lot is less than the minimum allowed in that zone.
(2) Adjoining parcels of land under one ownership but on two or more Assessor's maps may be considered as separate parcels or as one combined parcel, at the option of the owner. Once the owner of contiguous parcels has made a declaration that the parcels are to be considered as one, that declaration shall be final, irrevocable, and binding on all future owners, heirs and assigns, and shall be filed for record in the office of the County Clerk and shall be considered for all purposes a covenant attached to and running with the land and binding on subsequent interests.

Section 5.030 HOME OCCUPATIONS

A home occupation is a lawful activity commonly carried on within a dwelling by members of the family occupying the dwelling with no servant, employee, or other person being engaged, and shall be allowed in any zone, provided that:

(1) The residence character of the building is maintained;

(2) The activity is conducted in such a manner as not to give an outward appearance nor manifest any characteristic of a business in the ordinary meaning of the term, not infringe upon the right of neighboring residents to enjoy the peaceful occupancy of their homes.

Section 5.040 CONVERSION OF EASEMENT TO TAX LOT

A recorded easement of a specific size on the date of this ordinance may be converted to a tax lot of record only if it is immediately dedicated to the public irrevocably and forever, and such public dedication is approved by the Board of Commissioners.

Section 5.050 TEMPORARY SPECIAL PERMIT

Authorization: The Planning Commission, Planning Director or County Commissioners may issue a Temporary Special Permit in any zone for a use not otherwise permitted, for the following purposes and after the following procedures. A Temporary Special Permit may be issued with or without conditions and/or prerequisites, or be denied. A time limit on the permit shall always be imposed.

Procedures and Purposes:

(a) The Planning Commission, the Board of County Commissioners, a public agency or a property owner may initiate an application for a temporary special permit by filing an application with the secretary of the Planning Commission, using forms prescribed by the Commission;

(b) A Temporary Special Permit may be issued, without a public hearing, by the Planning Director for the following purposes:

(1) For environmental enhancement, or the abatement of environmental pollution of any kind.

(2) For construction purposes, where a permit has been issued.

(3) For temporary placement of a mobile home while a dwelling is being constructed if said dwelling is to be for the applicant’s personal use. However, the installation of a separate subsurface sewage disposal system for a temporary mobile home permit granted pursuant to this subsection is prohibited.

(c) A Temporary Special Permit may be
issued by the Planning Commission, after holding a hearing according to Section 10.050, for the following purposes:

(1) To alleviate an unforseen situation that has arisen since the enactment of this ordinance until a stated permanent solution may be affected.

(2) For a public purpose by a governmental agency, or by a private firm under contract to a public agency for a public purpose, such as a gravel extraction and crushing operation, an asphalt plant and related operations, or a construction storage site, with concrete mixing machines and related operations.

(3) For any other temporary purpose where it can be shown that an overriding public purpose will be served by the issuance of a temporary special permit, and no other mechanism is available to accomplish that purpose.

(d) Within 5 days after a decision has been rendered regarding a temporary special permit, the secretary of the Planning Commission shall give written notice to the applicant of the decision.

(e) An applicant granted a temporary special permit must also obtain a zoning permit before commencing construction.

Time Limit: A Temporary Special Permit shall be void after one year unless the permit has been acted upon, or after such lesser time as the permit may specify. However, a permit may be extended for up to one additional year, on request.

Requirements for the Granting of a Special Exception: The provisions of this section shall apply only to those residential zoning districts in which applications for Special Exceptions to Minimum Area Requirements are specifically authorized. In such zoning districts, the Special Exception is appropriate for use in the following kinds of situations:

(1) The applicant wishes to create a parcel with an area smaller than that required by the existing zoning for the purpose of establishing a building site for the residence of a relative by blood, marriage, or legal adoption, where such relative has need to reside near the applicant's residence in order to share in the operation and maintenance of the applicant's farm or timber raising activity.

(2) Where there exists a personal, but not necessarily financial hardship on the part of the applicant and because of this hardship the applicant wishes to partition his or her land

Section 5.060 SPECIAL EXCEPTIONS TO MINIMUM AREA REQUIREMENTS

The purpose of this section is to establish Special Exceptions to the Minimum Area Requirements of certain residential districts. The Special Exception to the Minimum Area Requirements is intended to provide a means for modifying such area requirements in cases where a strict adherence to them might cause unusual or undue hardship to a property owner and contravene the goals of the Comprehensive Plan for Umatilla County. The Special Exception to Minimum Area Requirements is not intended to authorize directly or indirectly speculative land division otherwise prohibited by zoning area requirements. Nothing in this section shall be construed to require the granting of such a Special Exception. A result of this section shall be the preservation of family farms and the preservation of large parcels of farm and forestry lands. The overall density provisions of the applicable zoning district should be retained whenever possible.
for sale, but reserving for the applicant a homestead of less than minimum parcel size required by existing zoning and where:

(a) The applicant owned the parcel at a time when the proposed partitioning would not have been in violation of the zoning ordinance; and

(b) Relocation of the applicant's house or house hold from the property would be detrimental to the applicant's well-being,

Criteria: The Hearings Officer shall consider the following criteria in evaluating an application for Special Exception to Minimum Area Requirements:

1) Unusual Need or Circumstances: The applicant shall be required to show that an unusual combination of circumstances and needs similar to those expressed in 1 or 2 above necessitates the granting of a Special Exception.

2) Lack of Suitable Alternatives: A Special Exception should be granted only in cases where the applicant's needs cannot be satisfied in a suitable manner under the other procedures and provisions of this ordinance, except for those dealing with zone changes.

3) Preservation of Economic Land Units: While this granting of any single Special Exception is unlikely to cause significant detrimental effects upon any residential zoning district, the cumulative effects of such exceptions should be analyzed carefully. The trends and patterns in division of land to insure that the granting of a Special Exception will not initiate, accelerate, or otherwise cause the conversion of a zoning district's agricultural or forest lands to more intensive development and uses.

4) Conformance with Land Division Regulations: Any parcel to be created as the result of the granting of a Special Exception shall conform with all applicable provisions of this ordinance and the Umatilla County Subdivision Ordinance except for those dealing with minimum parcel area.

The Hearings Officer may develop and recommend to the Board for adoption additional criteria and policies regarding applications for Special Exceptions.

Partition Process Required: The granting of a Special Exception by the Hearings Officer shall be considered only a waiver of Minimum Area Requirements. Such a granting does not constitute an approval to partition land; any applicant granted a Special Exception shall be required to conform to all appropriate procedures and requirements for partitioning land.

Multiple Applications: Application for a Special Exception to circumstances or needs of the applicant; the burden of demonstrating such circumstances or needs shall be successively greater for any application beyond the first by the same property owner or for the same parcel.

Conditions: In granting a Special Exception, reasonable conditions may be imposed as are necessary to meet the purposes and criteria of this section and the goals and policies of the Umatilla County Comprehensive Plan. Guarantees and evidence of compliance with such conditions may be required.
intended to provide a means for modifying mobile home placement requirements in cases where strict adherence to them might cause unusual or undue hardship to a citizen and contravene the goals of the Comprehensive Plan for Umatilla County. Undue hardship shall refer to unique and temporary conditions that exist which justify the need for temporary housing on a given lot or parcel such as a dwelling for seasonal farm labor, aged or disabled family members, domestic employees or similar dwelling needs of a temporary nature that relate to the use of the principal use on the property in question. Nothing in this section shall be construed to require the granting of such a Special Exception.

Circumstances for Granting a Special Exception for Temporary Mobile Home Placement: A mobile home may be temporarily located on a building site or lot under the following circumstances:

(1) Where there exists a personal, but not necessarily financial, hardship on the part of the applicant, whereby it is necessary to have someone living on the same premises as the applicant's dwelling or mobile home; however, the installation of a separate subsurface sewage disposal system for a temporary mobile home permit granted pursuant to this sub-section is prohibited.

(2) Where the resident of the mobile home is to be engaged in bona fide agricultural, forestry management or mineral extraction work on the subject property. Conditions: The following conditions shall be applied by the Hearings Officer in evaluating an application for Special Exception for Temporary Mobile Home Placement:

(1) Approval shall clearly set forth the conditions under which the temporary mobile home placement is allowed.

(2) Approval shall be for a period of one year which may be renewed. However, the mobile home shall be removed thirty (30) days after the original need has ceased.

(3) The Hearings Officer may require doctor's certification for applications based upon family member dependency due to medical reasons.

(4) The location of a temporary mobile home on a parcel of land shall not be considered a separate dwelling site and the lot area, frontage and access requirements of the applicable zoning district shall not apply.

(5) In granting a Special Exception for Temporary Mobile Home Placement, the Hearings Officer may impose additional reasonable conditions to meet the purposes of this section and the goals and policies of the Comprehensive Plan. Guarantees and evidence of compliance with conditions may be required.

Section 5.080 USE OF EXISTING AGRICULTURAL BUILDINGS IN RESIDENTIAL ZONES

Agricultural buildings (barns, sheds, etc.) no longer used for agricultural purposes and located in residential zoning districts may be used for other uses such as, but not limited to, storage, warehouse, home occupations (in accordance with Section 5.030(2), or very limited commercial or manufacturing uses, as a conditional use in accordance with Article 7.

The Hearings Officer shall approve said Conditional Uses if it is determined that:

(1) The use does not contravene the goals of the Comprehensive Plan.
(2) The use would be in keeping with the general purpose and intent of the zoning district involved.

(3) The residential quality of the area is protected by conditions including, but not limited to:

(a) Any storage shall be contained entirely within the building;

(b) Stored material shall not be in view of the general public from any street, road or easement used for residential access;

(c) A site obscuring fence or hedge may be required to provide an attractive setting;

(d) The traffic generated by the use should not exceed a weekly average of five trips per day and on no one day exceed ten trips;

(e) Artificial lighting shall be discouraged, but if a need is shown for lighting then it shall be directed away from surrounding residences;

(f) No sign shall be allowed except for one freestanding sign that conforms to a Type 5 sign as outlined by Section 4.012 of this ordinance and by a ruling of the County Hearings Officer.

(g) Department of Environmental Quality noise regulations that may apply.
ARTICLE 6, NONCONFORMING USES

Sections:

6.010 Continuation of nonconforming use or structure
6.020 Discontinuance of nonconforming use
6.030 Change of nonconforming use
6.040 Destruction of nonconforming use or structure
6.050 Completion of structure
6.060 Nonconforming lots of record
6.065 Setbacks on nonconforming lots of record

Section 6.010 CONTINUATION OF NONCONFORMING USE OR STRUCTURE

Subject to the provisions of ORS 215.130 and provisions of Section 6.010 through 6.070 of this ordinance, a nonconforming use or structure may be continued but may not be altered or extended, except as follows:

(1) The extension of a nonconforming use to a portion of a structure which was arranged or designed for the nonconforming use at the time of passage of this ordinance is not an enlargement or expansion of a nonconforming use;

(2) A nonconforming structure which conforms with respect to use may be altered or extended if the alteration or extension does not cause the structure to deviate further from the standards of this ordinance;

(3) A nonconforming mobile home may be replaced or altered if the new mobile home or alteration does not deviate further from the standards of this ordinance.

Section 6.020 DISCONTINUANCE OF A NONCONFORMING USE

If a nonconforming use is discontinued for a period of one year, further use of the property shall conform to this ordinance.

Section 6.030 CHANGE OF NONCONFORMING USE

If a nonconforming use is replaced by another use the new use shall conform to this ordinance.

Section 6.040 DESTRUCTION OF NONCONFORMING USE OR STRUCTURE

If a nonconforming structure or a structure containing a nonconforming use is destroyed by any cause except intentional destruction by the owner to an extent exceeding 80 percent of its fair market value as indicated by the records of the County Assessor and is not begun to be reconstructed within one year from the date of destruction, a future structure or use on the site shall conform to this ordinance.

Section 6.050 COMPLETION OF STRUCTURE

Nothing contained in this ordinance shall require any change in the plans, construction, alteration, or designated use of a structure for which construction has commenced prior to the adoption of this ordinance, provided the structure, if nonconforming or intended for a nonconforming use, is completed or shows reasonable progress toward completion within two years of the effective date of this ordinance. If after two years time, reasonable
progress has been shown, an extension of time must be requested from the Planning Commission.

Section 6.060 NONCONFORMING LOTS OF RECORD

Any lot which is smaller than the minimum area required in any zone may be occupied by an allowed use in that zone, provided that:

(1) The lot was a tax lot of record on the date of this ordinance, or was a lot in a recorded subdivision, and

(2) The use conforms to all other requirements of that zone, and

(3) If there is an area deficiency, residential use shall be limited to Single-family dwelling or a Two-family dwelling, and (Revised 11/72)

(4) Approval of the Department of Environmental Quality is obtained.

A nonconforming lot of record may not be re-divided or reduced in area unless it is rezoned to become legally dividable, except as provided for by Section 1.030(2).

Section 6.065 SETBACKS ON NONCONFORMING LOTS OF RECORD

Any structure built on a nonconforming lot of record 100 feet or less in width shall be exempt from the side yard setback requirements of the various zones, except that no structure shall be located less than five feet from a side property line or ten feet from a structure on an adjoining lot unless the facing wall of the new structure is a noncombustible masonry fire-wall without openings or roof overhang. (Revised 11/72)
ARTICLE 7, CONDITIONAL USES

Sections:

7.010  General provisions regarding conditional uses
7.020  Procedure for taking action on a conditional use application
7.030  Time limit on a conditional use permit
7.035  Limit on reapplication
7.040  Suggested standards governing conditional uses

Section 7.010 GENERAL PROVISIONS REGARDING CONDITIONAL USES

Conditional uses listed in this ordinance may be permitted, enlarged, or altered upon authorization by the Hearings Officer in accordance with the standards and procedures set forth in Sections 7.010 through 7.040 inclusive.

(1) In permitting a new conditional use or the alteration of an existing conditional use the Hearings Officer may impose additional conditions which the Hearings Officer considers necessary to protect the best interests of the surrounding area or the county as a whole.

(2) In the case of a use existing prior to the effective date of this ordinance and classified in this ordinance as a conditional use, any change in use or in lot area or an alteration of structure shall conform with the requirements for conditional use.

(3) The county may require an applicant to furnish the county with a performance bond or such other form of assurance that the county deems necessary to guarantee development in accordance with the standards established and conditions attached in granting a conditional use.

Section 7.020 PROCEDURE FOR TAKING ACTION ON A CONDITIONAL USE APPLICATION

The procedure for taking action on a conditional use application shall be as follows:

(1) A property owner or the Planning Commission may initiate a request for a conditional use by filing an application with the secretary of the Planning Commission, using forms prescribed pursuant to Section 10.030.

(2) Within 60 days of receipt of the application, the Hearings Officer of the county shall hold a hearing and take action thereon. Applicant shall be given written notice of the decision by the Planning Director or the secretary of the Planning Commission within five days of the decision.

(3) A Conditional Use Permit shall not be approved unless the proposed use of the land would be in compliance with the Umatilla County Comprehensive Plan.

(4) An applicant granted a conditional use permit must also obtain a zoning permit before commencing construction.

Section 7.030 TIME LIMIT ON A CONDITIONAL USE PERMIT

A Conditional Use Permit shall be void after one year or such lesser time as the permit may specify unless the permit allowed has been acted upon. However, the Hearings Officer may extend authorization for an additional period not to exceed one year, on
request.

Section 7.035 LIMIT ON REAPPLICATION

No application for a Conditional Use Permit shall be considered by the Hearings Officer within one year of the denial of such a request, unless in the opinion of the Hearings Officer new evidence or a change of circumstances warrant it.

Section 7.040 SUGGESTED STANDARDS GOVERNING CONDITIONAL USES

In addition to the standards of the zone in which the conditional use is located and the general standards of this ordinance, the Hearings Officer shall consider the following additional requirements:

(1) Conditional uses, generally:

(a) Yards:

In an F-2, F-4, F-5, R-2, R-3 and R-4 Zone, yards may be at least two-thirds the height of the principal structure. In any zone additional yard requirements may be imposed.

(b) Limitations on access to property and on openings to buildings:

In an R-3 and R-4 Zone, the Hearings Officer may limit or prohibit vehicle access from a conditional use, and it may limit or prohibit building openings within 50 feet of residential property if the openings will cause glare or excessive noise or will otherwise adversely affect adjacent residential property.

(2) Automobile wrecking yard, junkyard:

In considering a conditional use application for an automobile wrecking yard, or junkyard, the Hearings Officer may require that it be enclosed by a sight-obscuring fence not less than six feet high.

(3) Airports and aircraft landing fields, aircraft charter, rental, service and maintenance facilities:

The Hearings Officer shall be satisfied that the location and site design of the facility will not be hazardous to the safety and general welfare of surrounding properties, nor that the location will unnecessarily restrict future development of surrounding lands to their highest and best use.

(4) Cemeteries:

The Hearings Officer may require evidence that the terrain is suitable for interment and that the nature of the subsoil and drainage will not have a detrimental effect on ground or domestic water supplies. It should not be placed where residential development is desired. Room for expansion should be provided, as required.

(5) Church, hospital, nursing home, convalescent home:

A church, hospital, nursing home, convalescent or retirement home may be authorized as a conditional use after consideration of the following factors: sufficient area provided for the building, required yards, and off-street parking (related structures and uses such as a manse, parochial school, or parish house are considered separate principal uses with additional lot area required); location of the site relative to the service area of the church, hospital, or home; probable growth and growth needs; site location relative to land uses in the vicinity; and adequacy of access from principal streets together with the probable effect on the traffic.
volumes of abutting and nearby streets.

A church, hospital, nursing home, convalescent home, retirement home, or related building shall be at least 30 ft. from a side or rear lot line.

(6) Clinics, clubs, lodges, fraternal organizations, community centers and grange halls, golf courses, grounds and buildings for games or sports, country clubs, swimming, boating, tennis clubs and similar activities, governmental structures and land uses, parks, playgrounds.

In considering the above, the Hearings Officer may authorize the conditional use after assurance that the following is to be provided:

(a) Adequate access from principal streets;
(b) Adequate off-street parking;
(c) Adequate building and site provisions to minimize noise and glare from the building and site.

(7) Dog Pounds and kennels:

The Hearings Officer may authorize a dog pound or kennel as a conditional use provided that building and site design provisions are adequate to minimize noise and odor. When necessary to protect surrounding properties, the Hearings Officer may require a sight obscuring fence or hedge, and may restrict vehicular access and loading facilities, especially those required by trucks transporting large animals.

(8) Dwellings, permanent and seasonal or vacation, summer or weekend cottages, hunting and fishing cabins: The Hearings Officer may authorize either permanent or seasonal dwellings, cottages, and cabins in the county’s forest and other recreation areas, after assurance that the applicant is prepared to provide for and maintain their own public service needs without creating hazards to public health or placing unreasonable demands of public agencies, such as the county and the school district, that are normally responsible for providing certain public services.

(9) Gun and archery ranges:

The Hearings Officer may allow gun and archery ranges after satisfaction that the ranges are to be located and designed to avoid endangering persons or livestock in adjacent areas.

(10) Hog farm, livestock feed yard, livestock sales yard:

(a) In considering a conditional use application for a hog farm, livestock sales yard, or livestock feed yard, the Hearings Officer may require:

prevailing wind patterns and other existing or potential development, and limitations of the number of animals to be kept on the premises.

(11) Landfill, solid waste disposal site:

ARTICLE 8, VARIANCES

Sections:

8.010 Authorization to grant or deny variances
8.015 Minor variances
8.020 Circumstances for granting variances
8.030 Procedure for taking action on a variance
8.040 Time limit on a permit for a variance
8.045 Limit on reapplication

Section 8.010 AUTHORIZATION TO GRANT OR DENY VARIANCES

The Hearings Officer of the county may grant a variance to the requirements of this ordinance where it can be shown that owing to special and unusual circumstances related to a specific lot, strict application of the ordinance would cause an undue or unnecessary hardship. No variance shall be granted to allow the use of property for a purpose not authorized within the zone in which the proposed use would be located. In granting a variance, the Hearings Officer may attach conditions which it finds necessary to protect the best interests of the surrounding property or vicinity or otherwise achieve the purposes of this ordinance.

Section 8.015 MINOR VARIANCES

Variances involving the following may be granted by the Planning Director after a thorough examination and upon presentation of the following evidence:

Minor variances involve only the following circumstances:

(1) Deviation from a minimum lot size or setback by not more than 11%.

(2) Expansion of a nonconforming use by not more than 10%.

(3) Increase in the area or height of a sign by not more than 10%.

(4) Any provision of Section 4.060(1) governing accessory structures.

Evidence:

A minor variance may be granted only where the applicant can show that literal application or enforcement of the ordinance would result in practical difficulty or unnecessary hardship and the relief granted would not be contrary to the public interest or the intent or spirit of the ordinance.

Procedure:

Upon receipt of the application form and payment of the usual application fee for a variance, the Planning Director shall render a decision within 5 working days, or he may elect to defer the decision to the Planning Commission. Additional information may be requested by the Planning Director in arriving at his decision.

Notice to property owners:

Should the Planning Director or the Planning Commission decide to grant a minor variance, the decision shall not become final until 15 days have elapsed. A notice of the proposed variance shall be mailed within 2 days to all owners of property within 250 feet of the subject property, and objections and comments solicited. If written objections to the proposed variance are received within the 15 day period, a public hearing shall be held according to Section 10.050 of this ordinance.
If no objections to the variance are received, the decision shall become final and effective at the end of the 15 day period.

**Appeal:**
A decision of the Planning Director may be appealed only to the Planning Commission. A decision of the Planning Commission may be appealed only to the Board of Commissioners. An appeal must be filed in writing with the Secretary of the Planning Commission within 15 days of the decision being appealed, or that decision will be final.

**Section 8.020 CIRCUMSTANCES FOR GRANTING A VARIANCE**

A variance may be granted under some or all of the following circumstances:

1. Exceptional or extraordinary circumstances apply to the property which do not apply generally to other properties in the same zone or vicinity, and result from lot size or shape, topography, or other circumstances over which the owners of property since enactment of this ordinance have had no control;

2. The variance is necessary for the preservation of a property right of the applicant substantially the same as possessed by the owners of other property in the same zone or vicinity;

3. The variance would not be materially detrimental to the purposes of this ordinance, or to property in the same zone or vicinity in which the property is located, or otherwise conflict with the objectives of any county plan or policy;

4. The variance requested is the minimum variance which would alleviate the hardship.

**Section 8.030 PROCEDURE FOR TAKING ACTION ON A VARIANCE APPLICATION**

The procedure for taking action on an application for a variance shall be as follows:

1. A property owner or the Planning Commission may initiate a request for a variance by filing an application with the secretary of the Planning Commission, using forms prescribed pursuant to Section 10.030;

2. Within 60 days of receipt of the application, the Hearings Officer of the county shall hold a hearing and render a decision thereon. Applicant shall be given written notice of the decision by the Planning Director or the secretary of the Planning Commission within five days of the decision;

3. An applicant granted a variance must also obtain a zoning permit before commencing construction.

**Section 8.040 TIME LIMIT ON A PERMIT FOR A VARIANCE**

A variance shall be void after one year unless the variance allowed has been substantially completed. However, the Planning Commission may extend authorization for an additional period not to exceed one year, on request.

**Section 8.045 LIMIT ON REAPPLICATION**

No application for a variance shall be considered by the Hearings Officer within one year of the denial of such a request, unless, in
the opinion of the Hearings Officer, new evidence or a change or circumstances warrant it.

**Section 9.010 AUTHORIZATION TO INITIATE AMENDMENTS**

An amendment to the text of this ordinance or to a zoning map may be initiated by the County Board of Commissioners, the County Planning Commission, or by application of a property owner. The request by a property owner for an amendment shall be accomplished by filing an application with the secretary of the Planning Commission, using forms prescribed pursuant to Section 10.030.

**Section 9.015 COMPLIANCE WITH COMPREHENSIVE PLAN**

An amendment to the text of this ordinance or to a zoning map shall comply with the provisions of the Umatilla County Comprehensive Plan text and Comprehensive Land Use Map. Any deviation from this section shall be preceded by an amendment to the Comprehensive Plan Text or to the Comprehensive Land Use Map. However, if the existing use of the property is allowed outright in the requested zone, compliance with the Comprehensive Plan is not necessary.

**Section 9.020 PUBLIC HEARINGS ON AMENDMENTS**

The Planning Commission shall conduct a public hearing on the proposed amendment according to the procedures of Section 10.050 at its earliest practicable meeting after it is proposed.

The decision of the Planning Commission shall be final unless appealed. Appeal shall be to the County Board of Commissioners who shall hold a public hearing on any appeal, pursuant to Section 10.020. Appeal shall be heard on a de novo basis.

**Section 9.030 APPEAL OF LESS INTENSIVE USE THAN REQUESTED**

The Planning Commission, or the County Board of Commissioners, if appealed, may approve a less intensive use or zone than requested without readvertising or holding an additional hearing. However, the granting of a remedy other than the one requested shall be prohibited.

Example: A request for a zoning amendment from R-1 (4 acres) to R-2 (1 acre) may be granted R-1A (2 acres). However a Conditional Use Permit or a Variance shall not be granted instead of a Zone Amendment.

**Section 9.040 CONDITIONS TO AMENDMENTS**

The Planning Commission may adopt or reject an amendment, or any portion thereof, as set forth in the request, or may impose conditions to the amendment or portions thereof.
(1) Conditions to amendments shall be completed within the time limitations set forth by the County, or if no such time limitation is set, within a reasonable time.

(2) Such conditions shall directly benefit the property described in the amendment and shall be imposed only if the County finds them necessary to prevent circumstances which may be adverse to public health, safety and welfare.

(3) Such conditions shall be reasonably conceived to fulfill public needs emanating from the proposed land use as set forth in the petition in the following respects:

   (a) Protection of the public from potentially deleterious effects of the proposed use; or

   (b) Fulfillment of the need for public service demands created by the proposed use.

(4) Changes or alterations of conditions shall be proposed in the manner set forth in Sections 9 and 10 of this Ordinance, for amendments.

(5) Such conditions shall be set forth in a contract executed between the County, acting by and through the Board of County Commissioners, and the property owner and any contract purchasers. No amendments with conditions shall be effective until such properly executed contract is filed with the County Clerk, and proof of filing be submitted to the Planning Office. Such contract shall be properly signed and executed within 45 days after Commission actions on the amendment with conditions, provided, however, that the Commission may grant reasonable extensions in cases of practical difficulty. Such extensions shall not restrict the power of the County to rezone with or without conditions. In return for the granting of the petition for amendment, the property owner, contract purchasers and their heirs, successors and assigns shall perform those conditions set forth therein for the benefit of the public health, safety and welfare. Said contract shall be enforceable against the signing parties, their heirs, successors and assigns by the County by appropriate action in law or suit in equity.

(6) Failure to fulfill any conditions to amendments within the time limitations may be grounds for amendments to the zoning map (changes in zone) upon initiation by the proper parties pursuant to the procedure set forth in Sections 9, 10, and 11 of this ordinance.

(7) The County may require a bond in a form acceptable to the County or cash deposit from the property owner or contract purchaser in such an amount as will assure compliance with the conditions imposed pursuant to this section. Such bond shall be posted at the same time the contract containing the conditions to the amendment is filed with the County Clerk.

Section 9.050 RECORD OF AMENDMENTS

The County Clerk shall maintain records of amendments to the text and zoning map of the ordinance.

Section 9.060 LIMITATION ON REAPPLICATION

No application of a property owner for an amendment to the text of this ordinance or to the zoning map shall be considered by the Planning Commission within the one-year period immediately following a previous denial of such request, except that the
Planning Commission may permit a new application if in the opinion of the Planning Commission new evidence or a change of circumstances warrant it.

Section 11.040 REPEAL

All previous Umatilla County Zoning Ordinances, whether permanent, interim or special purpose, and all amendments thereto are hereby repealed.
ADDENDA: Explanation of the F-1 Zone

The F-1 Exclusive Farm Zone is based on, and copied from, Oregon Revised Statutes (ORS), Chapter 215.203 and 215.213, as revised by Chapter 503, Oregon Laws 1973. The F-1 Zone has been created to take advantage of the property tax provisions of ORS Chapter 308.370(1) which provides that “Any land which is within a farm use zone . . . and which is used exclusively for farm use as defined in subsection (2) of ORS 215.203, shall be assessed at its true cash value for farm use.” This zone, therefore, allows the farmer to receive the special “farm use” tax assessment (also known as the “tax deferral”) as usual, but with the following important differences:

(1) The special “farm use” land valuation for tax purposes is automatic and need not be applied for, and

(2) No “deferred tax” will be recorded for the property, and previously accumulated deferred tax on record will be forgiven and wiped off the tax records.

Note that there are two conditions which must be met before the above provisions come into effect:

(1) The land must be zoned F-1, and

(2) Use of the land must fall within the definitions in ORS 215.203.

OREGON STATUTES

The F-1 Exclusive Farm Zone is based on Oregon Revised Statutes 215.203 and 215.213, as reproduced below:

215.203: Adoption of zoning ordinances establishing farm use zones: “farm use” defined.

(1) Zoning ordinances may be adopted under ORS 215.010 to 215.190 to zone designated areas of land within the county as farm use zones. Land within such zones shall be used exclusively for farm use except as otherwise provided in ORS 215.213. Farm use zones shall be established only when such zoning is consistent with the overall plan of development of the county.

(2) (a) As used in this section, "farm use" means the current employment of land including that portion of such lands under buildings supporting accepted farming practice for the purpose of obtaining a profit in money by raising, harvesting and selling crops or by the feeding, breeding, management and sale of, or the produce of livestock, poultry, fur-bearing animals or honeybees or for dairying and the sale of dairy products or any other agricultural or horticultural use or animal husbandry or any combination thereof. "Farm use" includes the preparation and storage of the products raised on such land for man’s use and animal use and disposal by marketing or otherwise. It does not include the use of land subject to the provisions of ORS chapter 321, or to the construction and use of dwellings customarily provided in conjunction with the farm use.”

(2) (b) “Current employment” of land for farm use includes (A) land subject to the soil-bank provisions of the Federal Agricultural Act of 1956, as amended (P. L. 84-540, 70 Stat. 188): (B) land lying fallow for one year as a normal and regular requirement of good agricultural husbandry; and (C) land planted in orchards or other perennials prior to maturity.
215.203: Nonfarm Uses Permitted Within Farm Use

(1) The following nonfarm uses may be established in any area zoned under ORS 215.010 for farm use:

(a) Public or private schools.

(b) Churches.

(c) The propagation or harvesting of a forest product.

(d) Utility facilities necessary for public service, except commercial facilities for the purpose of generating power for public use by sale.

(e) The dwellings and other buildings customarily provided in conjunction with farm use, referred to in paragraph (a) of subsection (2) of ORS 215.203.

(2) The following nonfarm uses may be established, subject to the approval of the governing body of the County, in any area zoned under ORS 215.010 to 215.190 for farm use:

(a) Commercial activities that are in conjunction with farm use.

(b) Operations conducted for the exploration, mining, and processing of geothermal resources as defined by subsection (4) of ORS 522.010, aggregate and other mineral resources or other subsurface resources.

(c) Private parks, playgrounds, hunting and fishing preserves and campgrounds,

(d) Parks, playgrounds or community centers owned and operated by a governmental agency or a nonprofit community organization.

(e) Golf Courses

(f) Commercial utility facilities for the purpose of generating power for public use by sale.

(3) Single-family residential dwellings, not provided in conjunction with farm use, may be established, subject to the approval of the governing body of the County in any area zoned under ORS 215.010 to 215.190 for farm use upon a finding by the governing body that each such proposed dwelling:

(a) Is compatible with farm uses described in subsection (2) of ORS 215.203 and is consistent with the intent and purposes set forth in ORS 215.243; and

(b) Does not interfere seriously with accepted farming practices, as defined in paragraph (c) of subsection (2) of ORS 215.203, on adjacent lands devoted to farm use; and

(c) Does not materially alter the stability of the overall land use pattern of the area; and

(d) Is situated upon generally unsuitable land for the production of farm crops and livestock, considering the terrain, adverse soil or land conditions, drainage and flooding, vegetation, location and size of the tract; and

(e) Complies with such other conditions as the governing body of the County considers necessary.

NOTE: Land in the F-1 Zone falls under the provisions of ORS 380.370 (1). This does not mean, however, that land must be zoned F-1 to get the special farm use assessment. ORS 308.270(2) also provides as follows:
“Any land which is not within a farm use zone (F-1) but which is being used, and has been used for the preceding two years, exclusively for farm use as defined in subsection (2) of ORS 215.203 shall (upon application and approval) be assessed at its true cash value for farm use and not at the true cash value it would have if applied to other than farm use.”

NOTE: Other parts of ORS referred to above are as follows:

ORS 215.010 to 215.190: Authorizes the creation of County Planning Commissions, gives them certain powers and duties, sets procedures.

ORS 231: Governs Eastern Oregon Forest Products Harvest Tax.
