NARRATIVE:

The purpose of this survey was to establish the boundaries of a parcel of land in the South half of Section 29 and the Southwest quarter of Section 28. This is part of a much larger tract owned by John P. & Jean Weidert, Page 16, Book 296.

The South and West lines had previously been established during a survey by this firm in 1982, County Surveyor No. 82-46-B. The North line was to be parallel to the South line of Section 29 and to extend from the West line of Section 29 to a point in the Southwest quarter of Section 28 approximately 30 feet East of a sharp ridge line. This ridge line was surveyed and is shown on the drawing. The ridge line was followed to a point 30 feet East of the Columbia County Rural Electric Ass., Inc. parcel. A 30 foot right-of-way was left along the East line of said Electric parcel down to County road No. 717.

Bearings are based on County Surveyor Orng. No. 82-46-B records.

Survey accomplished using a Wilde T-2A and AGA Geodimeter using Third Order methods.
