

T6S, R33E, SECTION 5, W.M.
UMATILLA COUNTY, OREGON

NARRATIVE OF SURVEY

This survey was performed at the request of Mr. David McKenna. The purpose of the survey was to monument the corners of his land as shown on this map.

The south boundary of Section 5 has been posted by the US Forest Service. There is also some BLM ground in Section 5 that appears to have been surveyed but I found no record of that work. There are blazed and painted trees near the approximate BLM boundaries and BLM location posters near the section and 1/4 corners are dated 1982. The blazed lines appear to go to the proportionate points for the East and West 1/4 corners.

Most of the corners for this survey have been remonumented by other surveyors. I did find the original closing corner at the NW corner of Section 5 but failed to find the E. & W. 1/4 monuments of Section 5 or the S 1/4 of Section 31. All of these were originally monumented with wooden posts.

I computed the location of the North 1/4 corner of Section 5 midway between the closing corner monuments and on the Standard Parallel line. I calculated the proportionate points for the East and West 1/4 corners based on the closing monuments as per the Manual of Instructions. I subdivided the remainder of the section as per the Manual.

LEGEND

- * FOUND 3 1/4" BLM BRASS CAP FROM BLM RECORD NOTED
- FOUND A 2 1/2" BRASS CAP ON A GALVANIZED IRON PIPE AS STATED ON THE RECORD CORNER CERTIFICATES.
- SET A 5/8" x 24" IRON REBAR W/ A 1 1/8" ORANGE PLASTIC CAP STAMPED WTS AND 56295LS
- SET A 2 1/4" BRASS CAP ON A 1 1/2" x 30" GALVANIZED IRON PIPE AS NOTED.
- × COMPUTED POINT
- R1 GLO CONTRACT #362 DATED AUGUST 2, 1980 BY GEORGE S. PERSHIN
- R2 GLO CONTRACT #468 DATED APRIL 12, 1983 BY FRANK W. CAMPBELL
- R3 GLO GROUP #350 APPROVED JANUARY 23, 1980 BY CRAIG L. WANLESS
- R4 GLO GROUP #350 APPROVED JUNE 30, 1983 BY JAMES JELLEY et al.
- R5 CORNER CERT. 84-153-M
- R6 CORNER CERT. 84-154-M
- R7 CORNER CERT. Q-0910-R
- R8 CORNER CERT. Q-0911-R

BASIS OF BEARINGS

Bearings are based on GPS observations of the line between the standard corners on the First Standard Parallel South as shown on this map. The grid bearings obtained were rotated 1°13'29" to true bearings along that line.
