Evaluation

Lowest Bidder: QMS ScanPro

Preferred Bidder: QMS ScanPro

Reason for Selection: Cheapest bidder, ScanPro was recommended by other counties. Did contact someone at STimaging, but the ViewScan 5 has more features than the county needs.

ScanPro 2500 Standard Microfilm Scanner Specifications

Below are the base unit specifications with your initial purchase of the ScanPro 2500

- ✓ **Image Quality:** Largest sized image sensor (35mm x 48mm) creating the largest pixels in the industry providing the clearest image
- ✓ **Oversized Document Scanning:** Optical zoom magnification as low as 5x up to 32x
- ✓ **Camera Orientation:** Portrait and landscape selectable providing best image clarity for both portrait and landscape images (Preset to either Orientation)
- ✓ **Image rotation:** Digitally rotate 90 degrees right or left
- ✓ **Illumination:** Soft, bright, film-optimized, monochromatic LEDs with lifetime warranty and optically clear carrier glass for best image clarity
- ✓ **Precision-Guide rollers:** Low inertia 12 ball bearing design protects film, easy-to-thread, provides precision control of film position and movement
- ✓ **Fiche Carrier:** Support for fiche, jackets, ultrafiche, and micro-opaques
- ✓ **FOCUS-Lock™:** Continual image focus even during optical zoom, always in focus
- ✓ **Magnifier:** Digital zoom 5x to 375x, read small text and examine fine details. Scan and print what is seen in the magnifier window
- ✓ **Manual/Line Straighten:** Straighten an image up to 15 degrees manually or by a click of the mouse
- ✓ **Software selectable resolution:** 150 dpi to 1000 dpi, 8-bit grayscale, 1-bit black and white
- ✓ **Scan and save file formats:** Single click under a second creating a PDF, TIFF, JPEG and more, single, and multi-page, single page OCR (OCR using ABBYY Fine Reader Engine)

Hello Stephen,

Thank you for your interest in ScanPro Microfilm Scanners. Please find two quotes attached, along with some additional information.

Your timing is great, the manufacturer's offering an end-of-year promo. Purchase a ScanPro Standard model, they will ship a ScanPro All-In-One model. Promo expires December 15th 2025.

If you plan on placing an order, I recommend we have a discussion to ensure I configure the correct setup to match your microfilm collection's formats. Every microfilm situation is unique, and ScanPros are built to meet specific customer needs.

I suggest we schedule a Zoom call. I have a ScanPro Microfilm Scanner connected to my PC and can demonstrate answers to any questions you might have.

Both quoted options will provide you with the best image quality in the industry. They both include free software that allows you to view, print, and scan all your microfilm images to either PDF or TIFF files. This free software also comes with many more extra features.

Your purchase includes unlimited remote support. We will assist you with software setup, customization, and training at no additional charge.

Here are a few links for more information:

SCAN SMARTER. RESEARCH DEEPER.

Discover the ViewScan 5
Redefining Microfilm Scanning

The next-generation microfilm
scanner that's built for simplicity,
performance, and precision.
Built into one sleek solution.

STImaging

Built for Libraries.
Designed for Everyone.

Simple Setup. Intelligent Design.

Intuitive PerfectView software for users of all levels

Real-time PerfectFocus image clarity

Sturdy, durable all-metal construction

Plug-and-play installation with just USB + power

Accessible design for all ages & environments

Trusted by libraries, archives, and academic institutions

ViewScan 5 redefines how you interact with microfilm. Whether you're a genealogist, researcher, or first-time user, our scanner adapts to your needs. Built with powerful simplicity, it's ready to work straight out of the box — just plug in two cables and go. No fuss. No friction.

ViewScan 5 makes every scan smarter

Advanced Inside. Effortless Outside. Engineered for the Modern Library

At the heart of ViewScan 5 is a 20MP color image sensor, ensuring high-resolution scans every time. We've repositioned the camera to the scanner's base for extra security and usability — now with a solid light-bar handle for easy transport.

Whether you're scrolling through reels or capturing important frames, PerfectFocus keeps your image crystal-clear without adjustments.

Key Features:

-  20MP Color Camera Sensor
-  New Base Camera Placement
-  Overhead LED Illumination
-  Always-in-Focus Scanning
-  Comfortable Ergonomic Handle
-  Physical and Virtual Film Buttons
-  No Annual Software Fees

“

I highly recommend the ST ViewScan to any institution or organization that routinely uses microfilm and or microfiche.

Lucia Flaim | Kansas Room Librarian

Let's Bring Microfilm Into the Future – Together.

ST Imaging is a leading provider of digital microfilm scanning systems. For over 20 years, we've helped libraries, archives, and institutions preserve and explore history through smarter technology.

PerfectView Software

Intuitive. Fast. Beautiful.

PerfectView software makes it easy to scan, enhance, and manage your images with just a few clicks. Designed for researchers and archivists who value simplicity and power in one clean interface.

ViewScan 5 supports all major microform formats — including **Microfilm, Microfiche, and Aperture Cards** — ensuring maximum flexibility for libraries and research institutions.
